DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 58 is rejected under 35 U.S.C. 102(e) as being anticipated by Fermann et al (5,880,877).

The applied reference has a common inventor and assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Regarding claim 55, Fermann discloses a method of generating ultra-short optical pulses, comprising: circulating light energy within a laser cavity (see Fig. 1, Character 10); amplifying said light energy within said laser cavity in a multi-mode fiber (see Fig. 10, Character 100); and confining said light energy within said laser (see Fig. 10 Character 10) cavity substantially to the fundamental mode of said multi-mode fiber (see Fig. 10, Character 100), (see Figs. 1 – 13, Column 1, Lines 14 – 17, Column 3, Lines 61 – 67, Column 4, Lines 37 – 45, Column 6, Lines 35 – 57, Column 13, Lines 60 – 67, Column 14, Lines 1 – 24, and claims 10 – 24).

Allowable Subject Matter

Claims 1 – 50 and 58 are allowed.

Claim 56 and 57 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 10/18/2004 have been fully considered but they are not persuasive. Applicant's arguments with respect to claim 1 – 50 and 55 – 58 have been considered but are moot in view of the new ground(s) of rejection.
